**--Cross Reference to Related Applications**

This application is for entry into the U.S. national phase under §371 for International Application No. PCT/FI2004/000545 having an international filing date of September 17, 2004, and from which priority is claimed under all applicable sections of Title 35 of the United States Code including, but not limited to, Sections 120, 363 and 365(c), and which in turn claims priority to Finnish patent application 20031339 filed on September 18, 2003.--

*On page 9, please amend the paragraph beginning at line 13 as follows:*

--Moreover, if the data in the networks is mainly stored with support for commonly used Web/HTTP (HyperText Transfer Protocol) style data addressing/accessing means, [[a]] multiple standards or technologies are not needed for retrieving it and the overall flexibility of the arrangement rises to a next level. In the case of Internet 110 that's already reality and many private networks utilize the same techniques thus producing evident synergy effects.--
